

ceramics

Our Product Range

Binders and thickeners for glazes and engobes

Dispersing agents

Binders and plasticizers for body

Surface tension controller and levelling agents

Tecnology				
Application	NATURAL POLYMERS Carboxymethyl cellulose and Hydrocolloids	WATERBORNE SYNTHETIC POLYMERS Acrylic and polyurethanes	OLEOCHEMICALS AND FATTY DERIVATIVES	
	BODY PREPARATION / SHAPING Deflocculants Body strength enhancers Body plasticizers Demolding agents	GLAZING Deflocculants Rheology modifiers Surface tension modifiers Binders Mediums and Carriers Drying time modifiers Mediums and additives for Grits Fixing agents	INK PREPARATION Solvents Hyperdispersants Rheology modifiers Stabilizers Drying time modifiers	
Sector				
	TILES Our ceramic solutions offer unique designs, high quality, and eco-friendly benefits through advanced innovations.	WHITEWARE We help the whiteware industry create stylish, sustainable, and affordable everyday items through advanced technical innovation.	TECH CERAMICS / GLASS Chemical additives enhance ceramics' function and aesthetics, from pottery to advanced materials, efficiently.	DIGITAL Distinctive additives to support digital inks printing on ceramic tiles.

 **Lamcol**

Multifunctional powders for
glazes and engobes

 **Tixelam**

Natural polymer based
specialties for glazes

 **Gritmed**

Medium for microgrits

 **Fluijet®**

Hyperdispersants

 **Printojet**

Solvents and mediums for
ceramic digital developments

Science

*We develop and manufacture
molecules that generate
innovation while minimizing our
impact on the environment.*
