

# GRITMED 14280

## Chemical description

synthetic polymers in water solution

## Main use

Medium for microgrits application by Airless and Vela

## Typical values

Appearance at 20 °C:	liquid
Colour:	Opalescent white
pH (1% dispersion):	8 ± 1
Density (g/l) :	1025 ± 10

## Product properties

GRITMED 14280 is a product used for the application of glaze granulates or micro grits on the surface of the tile.

These can be mixed easily with the product and brought to the optimum viscosity, with the addition of water, glaze or the same GRITMED 14280.

Has been studied for Airless and Veil applications to maintain a homogeneous suspension. This allows to apply the micro grits optimally on the tile, to replacing the dry applications.

## Applications

	<b>Involved materials</b>	<b>Application range</b>
Blend for Vela	Grit/Gritmed/water	Since 45/10/45
Blend for Airless	Grit/Gritmed/water	Since 45/15/40

## Storage and handling

GRITMED 14280 when stored under normal conditions of temperature (5°C to 40°C) is stable and maintains its characteristics for at least 12 month.
